VII. Departments and Programs.

Since 1996, AID FOR AIDS International has worked to empower people with HIV and AIDS, their families and communities through programs that provide access to treatment, knowledge and preventive education, and social reform.

i. Access to Treatment and Health Services

- Drug Recycling Program: AFA recovers life-saving medication that otherwise would have been wasted and re-distributes it to those without access in the developing world. Since its founding 20 years ago, AFA has sent \$110 million in medication to beneficiaries.
- AIDS Treatment Access Program: Connects people with HIV or AIDS to life-saving medication, treatment planning, and resource management. We work with local medical providers to reach those without access to treatment in developing countries, filling in the gap where governments fail to provide care. To date, AFA has provided antiretroviral (ARV) treatment to over 18,000 people in 43 countries worldwide.
- Case Management Program: Through our office in New York, we provide social services to immigrants with HIV in the Greater New York Area. Assisting clients with services ranging from health education, housing, legal services, support groups, referrals, and more. Since its inception, the program has provided services to more than 8,000 immigrants.

- Community Outreach Program → HIV and Hepatitis C testing: Provides free and confidential HIV testing on-and off-site throughout the year in partnership with local organizations.

ii. Education and Training

- ¿Cuánto Sabes? (How Much Do You Know?): Utilizes an innovative model that combines neurolinguistics programming with an emphasis on life skills and HIV prevention education. Reaching thousands of young people per year through peer-to-peer education, the program spreads knowledge about HIV and helps create a culture of responsible and healthy sexuality.
- Leadership Program: Develops leadership skills and capacities so that people can bring about intra- and interpersonal change and transformational solutions to social problems.
- Health Care Providers Program: Maintains up-to-date information about treatment regimens and trains health professionals serving patients with HIV in Latin America and the Caribbean. Since its inception, the program has trained hundreds of health care providers in four countries in Latin America and the Caribbean.
- Children's Program: Operating in AFA's satellite offices in Latin America and the Caribbean, this program offers emotional, social and psycho-educational support to children with HIV. The program empowers children to take control of their health situation and gives them the tools to act as role models for their peers.

iii. Advocacy

- Department of Advocacy and Public Promotion: Empowers community leaders and promotes leadership for people with HIV or AIDS, at-risk populations, and the community at large. Furthermore, the Department of Advocacy ensures the fulfillment of international, national and local commitments in response to the HIV epidemic. Working within the framework of social change, we support and promote the involvement of civil society (affected community) and community-based organizations in all levels.
- Observatorio Latino (www.observatoriolatino.org): is the pioneer online forum in Latin America serving as a tool to generate public opinions and information about the funds received from the Global Fund to Fight AIDS, Tuberculosis and Malaria. At the same time,

it serves as a reference point for civil society (affected community) and other key actors in response to HIV.

VIII. Objectives

Strategic Objectives:

- Ensure operational efficiency and effectiveness in the organization.
- Strengthen the presence of AFA in Latin America and the Caribbean.
- Strengthen the presence of AFA in the city of New York; being recognized as the Agency with the best services targeting immigrants with and at risk of HIV.

Access to treatment and health services:

- Facilitate access to treatment and comprehensive health care for people with HIV and/or hepatitis C.
- Ensure access to treatment and comprehensive health care to leaders with HIV or hepatitis C, in each country.
- Reduce stigma and discrimination.

Education and Training

- Develop the culture of prevention in comprehensive health.
- Reduce stigma and discrimination.

Advocacy

- Promote social transformation for people and key populations in order for them to exercise their rights as citizens.
- Reduce stigma and discrimination.

IX. Organizational strategies

Access to health services and treatment

- Empowering people living with HIV, hepatitis C, key populations and communities to live with their health situation.
- Promote comprehensive prevention (primary and secondary).

- Support people with or without access to health services in their country.
- Promote health with an emphasis on leadership for equality in access to health services.

Education and Training

- Educating, training and informing people and at risk communities, providing empowerment for the development of their capabilities, life skills and leadership.
- Developing internal changes in individuals and communities.
- Reduce stigma and discrimination.

Advocacy

- Empower leaders of key populations with tools for advocacy for change.
- Develop internal changes in people and key populations.
- Plan and implement actions for lobbying and advocacy towards social and political change and the exercise of leadership.
- Generate public opinion in the population in general to support certain causes.

X. Accomplishments 2014

- \$7,7 million delivered in medication to PLWHAS in 37 countries.
- A one year supply of ARV provided to 1,500 people in the Dominican Republic.
- Growth of drop-off box network.
- In partnership with bio scrip, 7 drop-off locations were added on the east coast.
- 8,000 young educators trained to teach healthcare messages to their peers.
- Through these 8,000 young educators, 150,000 adolescents were reached.
- Through the social services offered in NY, AFAI enrolled 125 new clients and helped the 348 current ones.

XI. Actions for AID FOR AIDS organizational success.

In order to ensure future viability and organizational success, AID FOR AIDS International (AFAI) must strive to implement the actions:

- Continue to increase development efforts to improve cash flow, particularly focusing on accessing more unrestricted funds.
- Expand our network of donors of HIV medication in support of our Recycling Program within the U.S. outside the greater New York metropolitan area to take advantage of untapped market.
- Increase the number of smaller scale fundraising events throughout the entire fiscal year to complement the annual Gala – our premier fundraising event.
- Reach out to more corporations and individuals internationally to generate potentially new partnerships and collaborations.
- Continue to raise our international profile through participating in international conferences and meetings, such as the Clinton Global Initiative and the International AIDS Conference, in order to garner more support from around the globe.
- Review the measurements of impact for our programs and create improved systems of monitoring and evaluation of the services they provide.
- Incorporate the process of self-assessment and review of our organization’s goals and outcomes more fully into each of our regularly held board meetings.
